

Verbatim DVD+R Double Layer Media

Preferred by DVD drive manufacturers, Verbatim DVD+R DL media continues to set the standard for high-speed disc performance and compatibility. With outstanding quality and consistent reliability of both recording layers, Verbatim DVD+R DL 2.4X media has been approved for high speed burning of up to 6X speeds by almost all high speed Double Layer drive manufacturers. Store up to 8.5GBs of video in as short as 16 minutes while maintaining compatibility with most DVD video players or DVD-ROM drives.

Verbatim DVD+R DL Double Layer media maintains EXCELLENT play back compatibility with most DVD players. The results* speak for themselves; compare playback results from three popular DVD players!
