

## ASF116W9USZ | Widescreen Laptop Privacy Filter- 16:9- 11.6"W/ 11.6" Macbook Air

The Targus 11.6" Widescreen Notebook Privacy Filter is designed to fit 11.6" widescreen laptops. To protect your information, tiny vertical blinds on the surface of the screen narrow the viewing angle so data is only visible directly in front of the monitor up to 45 degrees away from the center of the screen. Onlookers will only see a dark unclear screen when attempting to view the information from a side angle. In addition to providing security, the privacy filter also blocks the glare to help reduce eye strain. The Targus Notebook Privacy Filter can be easily attached by using clear adhesive strips designed for LCD screens or with the included tab guides that stick to the edge of the LCD screen to hold the filter in place. Users can position the tabs so the filter easily slides on and off. The new under bezel tabs attaches to the privacy screen, which then slides under the bezel of your laptop for a clean, simple look. Highly portable and easy to use, the Targus privacy screen protects valuable information on a laptop and LCD monitor from onlookers.

Size - Designed to fit 11.6" widescreen notebooks (16:9)

Functionality and Design - Protects valuable information by narrowing the viewing angle; onlookers see only a dark screen instead of sensitive information; easy to install - adhesive strips, tab guides or patent-pending under-bezel tabs

Ease of Use - Use included adhesive strips to stick the screen to your LCD or use the included tabs that stick to the outside frame of the LCD screen

RoHS Compliant - N/A
