

4-Port USB 3.0 Hub - USB-C to 1x USB-C and 3x USB-A

StarTech ID: HB30C3A1CFB

The 4-port USB 3.0 hub lets you connect both USB-C™ and USB-A peripherals to your laptop or Chromebook™, through a single USB Type-C™ or Thunderbolt™ 3 port.

Get ready for USB-C

This USB 3.1 Gen 1 hub lets you expand your USB connection options using the USB-C port on your computer. It offers one USB-C and three USB-A ports, letting you connect traditional USB devices now, while still being able to connect the growing number of USB Type-C devices in the future.

The integrated, easy-to-use USB Type-C connector is small and reversible, which makes for easier insertions. You can connect the plug with either side facing up, which means less risk of damaging your ports, and less

frustration.

Add USB ports to your laptop, anywhere you go

With a compact and lightweight design, the USB-powered hub is tailored for mobility. It easily tucks into your carrying case and expands your connectivity when traveling.

Plus, this versatile USB hub takes up minimal space on a desk, so you can use it in hot-desk or BYOD (Bring Your Own Device) environments.

Save money and time

Avoid the nuisance and cost of purchasing new peripherals by using this USB 3.0 hub with your current USB 3.0 and 2.0 devices. The bus-powered hub installs in seconds with no additional drivers or software required, and it's compatible with virtually all operating systems.

The HB30C3A1CFB is backed by a 2-year StarTech.com warranty and free lifetime technical support.
