CD-R Digital Vinyl™

Digital Vinyl CD-R from Verbatim. It looks like an old 45-rpm record, but provides the high-quality performance, reliability and compatibility you have come to expect of Verbatim's optical media range.

Up until now, CD-R media has been pretty boring. Which is ironic, since music is such a vibrant part of our lives. Impossible to ignore, these discs are a great way to save delicate LP collections, make a standout buisness presentation or simply burn your personal music mix. Combining the look and feel of yesterday with the rugged quality and performance of today's technology, Digital Vinyl CD-Rs from Verbatim are a unique and eye-catching storage solution.

CD-R 8cm Pocket

When you're on the go, Verbatim Pocket CD-Rs are the perfect mini media. Only 8 cm in diameter, these cool, colorful discs will record up to 21 minutes of music, graphics, digital video clips, or more than 3 hours of compressed audio in the MP3 format. They're the ideal alternative to traditional business cards, a great giveaway at trade shows, and a fun, easy way to share just about anything with friends. Discs can be recorded and played in most computer CD drives and players, as well as a number of audio/video digital devices.

Verbatim

LightScribe Direct Disc Labeling is a technology that offers consumers and businesses a simple, no-hassle way to burn professional, silkscreen-quality images direct to the surface of their CDs. Using the same laser that burns data in their disc drives, customers burn their data as always, flip the disc over, reinsert it into the drive and burn a precise and permanent iridescent image directly to the discs surface. This technology requires a LightScribe enabled drive and media.

Burn, Flip, Burn!
