

## 6.6 ft. (2 m) USB to Lightning Cable - Apple MFi Certified - Black

Product ID: RUSBLTMM2MB

This USB to Lightning cable withstands the daily demands of charging and syncing your mobile devices. Tested to endure strenuous wear and tear, and winter and summer in-car use, the rugged cable is a must-have for both business and consumer applications.

The longer cable is ideal for overcoming distance restrictions.

### **Built for Daily Use**

The durable Lightning cable has aramid fiber reinforcement that shelters it from the stress of frequent bends and twists. This also lets the cable flex without over-stretching and strengthens the core of the cable.

### Cable Key Features

- 1. Aramid fiber adds strength and durability to the cable
- 2. Insulated conductors reduce friction, provide more flexibility
- 3. EMI (electromagnetic interference) protection with aluminum-mylar foil with braided shielding
- 4. TPE (thermoplastic elastomer) cable jacket is softer and more flexible than a standard PVC cable and environmentally friendly

### Flexible Strain Relief

The cable is constructed to prevent the connector from separating from the jacket. The extra-long strain relief molding is tested to withstand over 10,000+ bend cycles at a 180° angle. Plus, the improved inner molding resists cracking and reduces cable damage.

### Connector Key Features

- 1. Lightning connector provides 12W for charging your iOS devices
- 2. Metal shield protects circuit board from EMI and reinforces the connection point
- 3. Strain relief tested to tolerate over 10,000+ bend cycles at a 180° angle

RUSBLTMM2MB is an Apple MFi certified Lightning cable backed by a StarTech.com 2-year warranty.
