

PA410AU | DEFCON CL

The Targus DEFCON CL Cable Lock utilises 2.0m of cut-resistant, galvanised steel cable to attach your notebook to any secure object. Simply loop the lock around a desk or chair, insert DEFCON CL into your notebook's lock slot and set the combination. The included security base plate provides another convenient way to lock down a notebook or desktop equipped with a security lock slot. With up to 10,000 user-settable combinations, DEFCON CL is the first notebook security product to offer the benefits and convenience of a keyless solution.

This is a [Targus global product](#)
